([EMAILWIRE.COM](http://EMAILWIRE.COM), February 23, 2009 ) There are many concerns that exist today on the effects and resulting exposure to our environment that biological wastes present. These potential hazards come from a variety of sources and require a select treatment.

BioSAFE Engineering, LLC provides unique non-incineration, environmentally responsible solutions for treatment and disposal of medical and biologic (animal and human tissues & carcasses) wastes and for decontamination of liquid effluent wastes from bio-containment facilities. This unique technology includes, but is not limited to; hospital infectious waste, laboratory waste, surgical waste, sharps, liquids, and animal bedding utilizing its STI Systems technology. BioSafe is an internationally recognized company and technology. Recognized for its

environmentally responsible and respectful disposition; animal carcasses and tissues, human cadavers, anatomic, pathologic and medical waste, and many toxic wastes are treated effectively.

JL Haber, Vice President of Programming at Multi Media Productions, added, "BioSAFE Engineering and their technology is an exciting company with a unique mission. We are excited to have them as a guest on our program."
